Consulting Workflow

More infos under: [HIFIS Consulting Handbook](#)

”

Great idea and a great support especially since there is no other person programming in my research group. Very happy that you came up with this!

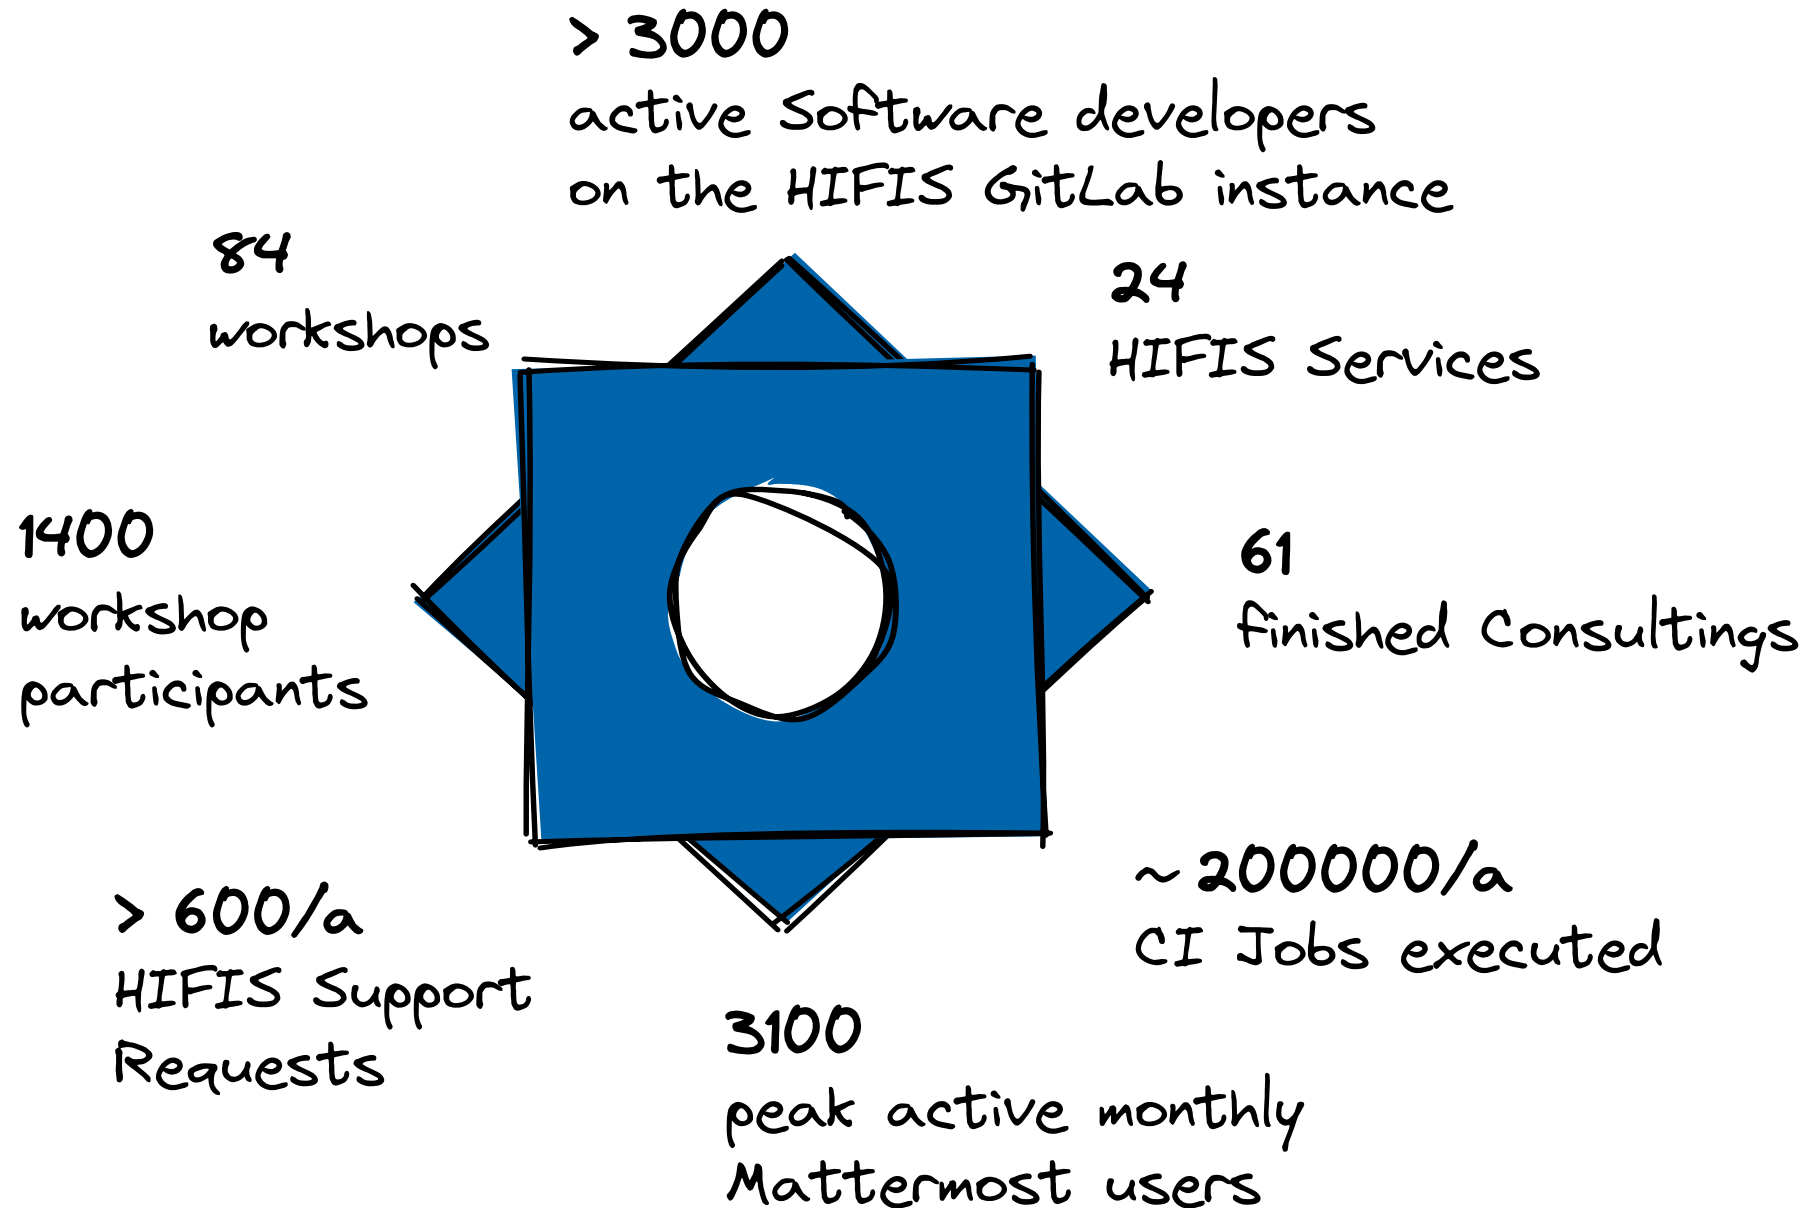

”

For us, it would be perfect to have such a consulting service over a longer period of time, e.g. for 6-12 months with regular meetings.

Impact of the consultation on your project or work (n=34)

Achievements

- Services are very well received with excellent feedback.
- Demand is higher than we can handle.
- Existing offers need to be polished, expanded and further integrated.
- **Building recognition for Research Software Engineering on all levels is still fundamental.**
