Higgs Physics 1

Wednesday, 5 April 2023 17:00 (1h 30m)

Introduction

Reminder of some shortcomings of the SM: masses, WW scattering.

The Higgs mechanism. Production and decay of the Higgs boson at colliders: LEP, Tevatron and LHC.

Previous searches at LEP and the Tevatron.

Presenters: GONCALO, Ricardo; GONÇALO, Ricardo (U. Coimbra/LIP)
