

# IDTM

Innovative Detector Technologies and Methods

Lisboa  
12-14 Sept 2023

## Goal:

- This workshop aims at stimulating the discussion on innovative detector technologies and methods required by the future challenges in particle physics at the HL-LHC, FCC, and other challenging experiments where the sensitivity to new physics processes demands exceptional progress and new ideas.

# IDTM

Innovative Detector Technologies and Methods

Lisboa  
12-14 Sept 2023

- Lunches will be in the cafeteria downstairs
  - Tickets at the workshop registration
- Today at 17h30: Wine tasting
- Wednesday: dinner at restaurant “Águas Livres”, 20h
  - Near the “Rato” station (subway, yellow line)

# O BOSÃO DE HIGGS E AS NOSSAS VIDAS

15-09-2023 · 18h00 · Pavilhão do Conhecimento, Lisboa

CIÊNCIA VIVA

## Programa

### 18:00 Abertura

- Rosalia Vargas, Presidente da Ciência Viva, e Mário Pimenta, Presidente do LIP

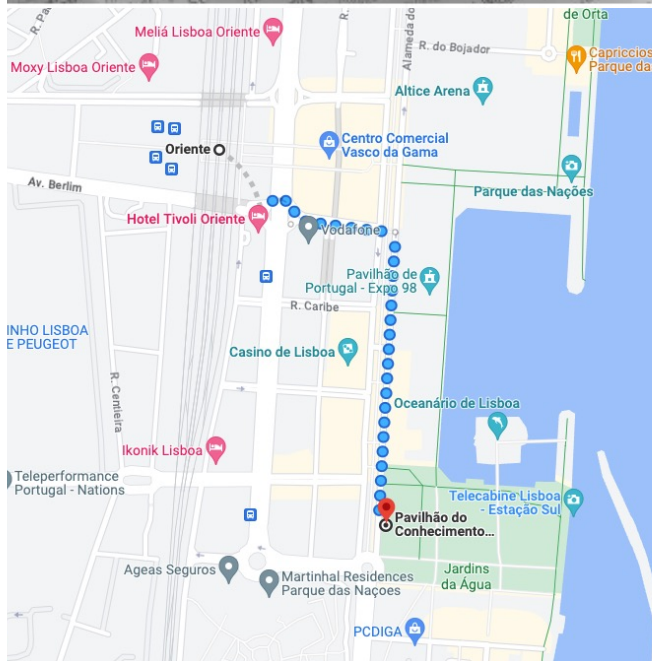

### 18:10 Keynote

- Fabiola Gianotti, CERN

### 18:50 Debate

- Fabiola Gianotti, Ricardo Barrué, doutorando do LIP, e Rodrigo Pascoal, Critical Software, com moderação de Sara Sá, Exame Informática

### 19:30 Encerramento

À conversa com **Fabiola Gianotti**,  
diretora-geral do CERN

Near the “Oriente” station (subway, red line)
