

- SHiP
 - first feedback/comments from SPSC referees received
- SND@Moriond (<https://indico.in2p3.fr/event/29681/>)
 - SND ([pdf](#)) and Faser ([pdf](#)) reported '**collider neutrino observations**'
 - next: publish ν_μ paper (5σ ?); measure x-section; first ν_e with electronic detectors only (?)
- sRPC telescope
 - installation/integration in 2023 Run, how early could we do it?
 - would be useful for analysis of this year's data, but commissioning time also needed
- DAQ/TOFPET
- test beam preparation
- timing calibration
- neutrino selection
- upgrade/AdvSND
- students
 - Beatriz completed her PIC/internship on TOFPET calibration (report, LIP paper ongoing)
- reports: LIP 2002 report ([for review](#)) + FCT project 1st report due
- outreach: LIP boletim / news, social media; conferences + seminars + ...
