

Flavour Phenomenology in the LHC Era

Miguel Nebot

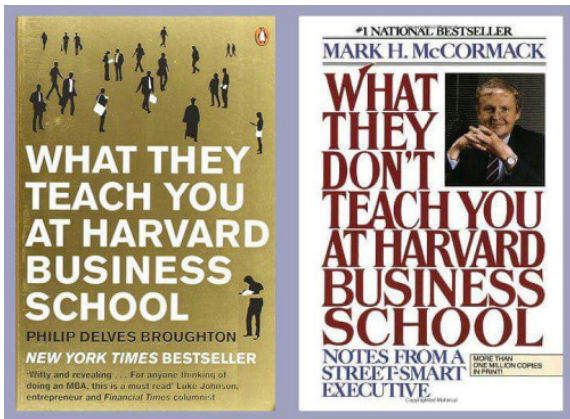

CFTP - IST Lisbon

**3rd Lisbon Minischool on Particle and Astroparticle
Physics**

Oeiras, February 7th 2018

Some topics

- Flavour aspects of beyond SM scenarios/Flavour Anomalies
- Phenomenological aspects of interest for experiments
at the LHC and elsewhere
 - MultiHiggs models
 - Models with additional (vector-like) quarks
- CPT Violation in Neutral Meson systems
