

Cloud IaaS/PaaS and EGI Notebook service

Wednesday, September 25, 2019 11:35 AM (15 minutes)

This presentation will provide an overview of the ongoing and new developments coming to 3 of the EGI computing services: Cloud Compute – which offers a federated multi-cloud IaaS –, Cloud Container Compute – which offers a Kubernetes-based platform for running docker applications – and Notebooks, a completely managed interactive computing service based on Jupyter.

Presenter: ENOL FERNÁNDEZ (EGI FOUNDATION)

Session Classification: Evolution of production software tools in EOSC
