

SciNeGHE 2014

Thursday, 5 June 2014

Session 6b - Synergies of VHE gamma detectors with different wavelengths and messengers - Auditorium (16:25 - 19:30)

-Conveners: Reynald PAIN

time	[id] title	presenter
16:25	[20] Present and future ground-based gamma-ray experiments and the study of the cosmic-ray energy spectra and composition; synergies with gamma rays	HAUNGS, Andreas
17:05	[26] AUGER: Present results and possible futures	PIMENTA, Mário
17:35	[12] Anisotropy of CR: indications for gamma rays?	TABOADA, Ignacio
18:05	[23] Gravitational waves and high-energy photons: the multi messenger connection / High-energy pulsars from gamma rays to gravitational waves	RAZZANO, Massimiliano
19:05	[24] Gamma ghosts & lensing	BUSON, Sara
