

12th International workshop on Multiple Partonic Interactions at the LHC

Tuesday, 12 October 2021

WG3: High multiplicities and small systems - Auditorium (11:00 - 12:00)

-Conveners: Simone Amoroso; Grigorios Chachamis

time	[id] title	presenter
11:00	[15] Leptons from HF decays : measurements and inferences towards small systems (15+3)	DAS, Debasish
11:20	[36] ALICE strange particles and fragmentation measurements (15+3)	BOMBARA, Marek
11:40	[38] The three point asymmetric cumulants in high multiplicity pp collisions (15+3)	SEGEV, Ran

WG3: High multiplicities and small systems - Auditorium (14:30 - 15:30)

-Conveners: Simone Amoroso; Grigorios Chachamis

time	[id] title	presenter
14:30	[81] Search for collective behaviour and multiparton interactions in ep scattering at HERA (20+5)	GANGADHARAN, Dhevan
15:00	[80] Collectivity in small systems: the initial state perspective (20+5)	KOVNER, Alex

WG3: High multiplicities and small systems - Auditorium (15:45 - 17:55)

-Conveners: Simone Amoroso; Grigorios Chachamis

time	[id] title	presenter
15:45	[53] Collectivity in small systems at RHIC (20+5)	VELKOVSKA, Julia
16:10	[29] ALICE results on long- and short-range correlations in high multiplicity pp collisions (15+3)	PARKKILA, Jasper
16:30	[4] Event-shapes and the presence of jets in e+e- and pp collisions (15+3)	SAS, Mike
16:50	[46] Jet quenching in small systems (20+5)	ZAKHAROV, Bronislav
17:15	[79] ATLAS and CMS results on collectivity in small-systems (20+5)	MOHAPATRA, Soumya

Friday, 15 October 2021

WG3: High multiplicities and small systems: summary and discussion - Auditorium (15:45 - 16:25)

-Conveners: Simone Amoroso; Grigorios Chachamis

time [id] title

presenter

15:45	[100] WG3: summary and discussion (20´+15´)	CHACHAMIS, Grigorios AMOROSO, Simone
