The first events of a signal sample

# Data Pre-Processing – Data Cuts

## Background Data:

- –0 Leptons drop ratio: 0.3438 %
- –At least 1 B-Tag: 81.2528 %
- –At least 1 FatJet: 2.2760 %
- –Total drop rate: 81.3892 %

## Signal Data:

- –0 Leptons drop ratio: 0.5268 %
- –At least 1 B-Tag: 34.2679 %
- –At least 1 FatJet: 0.0074 %
- –Total drop rate: 34.4409 %

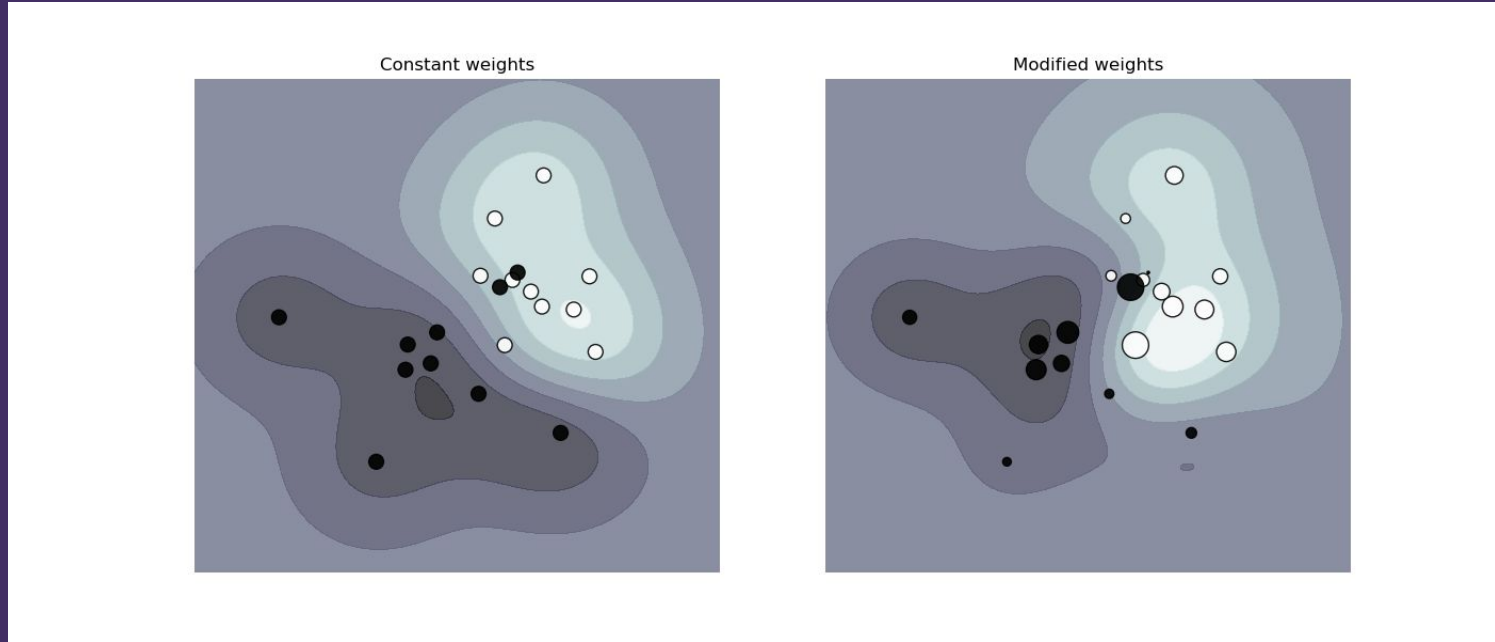

# Data Pre-Processing - Sample and Class Weights

Bring balance to the force!

# Data Pre-Processing - Sample and Class Weights

# Data Pre-Processing - Training, Validation and Test Set

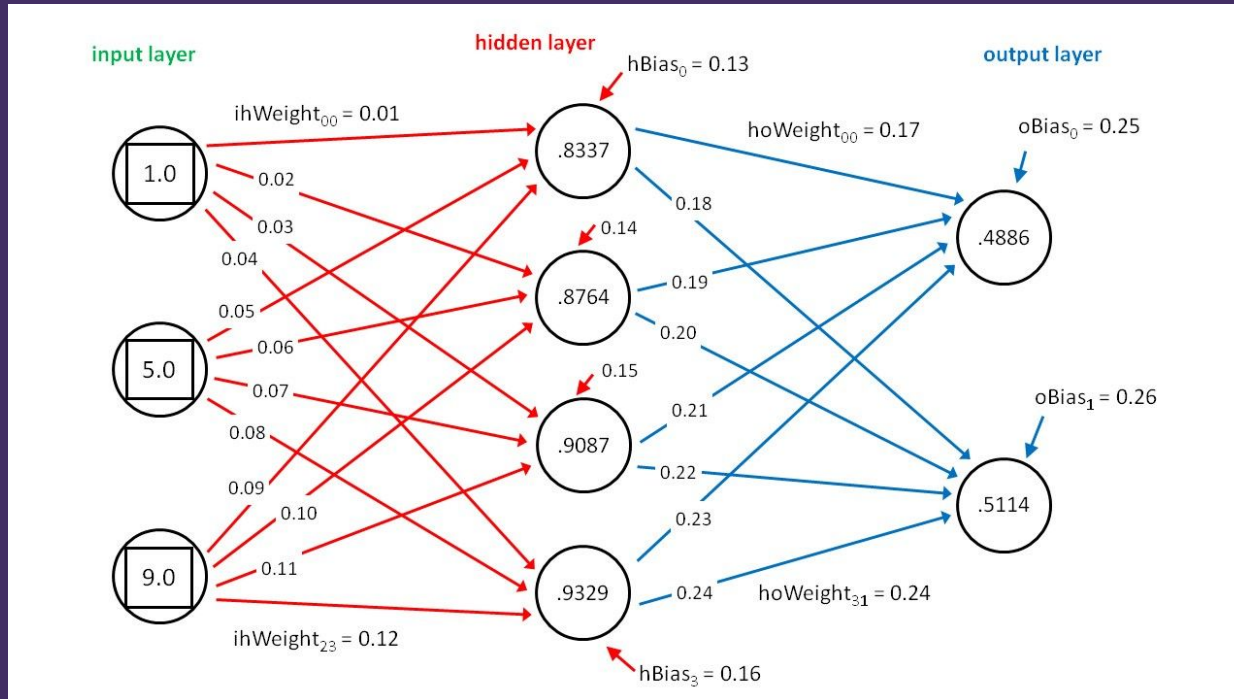

- Training Set - Will be used to train the model,
- Validation Set - Will provide an unbiased evaluation of a model fit on the training dataset using the loss and metrics.
- Test Set - is used to provide an unbiased evaluation of how well the model generalizes to new data.

# Deep Neural Networks (DNN)

# Deep Neural Networks (DNN)

# The Model

Model: "functional\_1"

Layer (type)	Output Shape	Param #
input_1 (InputLayer)	[(None, 69)]	0
dense (Dense)	(None, 100)	7000
dropout (Dropout)	(None, 100)	0
dense_1 (Dense)	(None, 100)	10100
dropout_1 (Dropout)	(None, 100)	0
dense_3 (Dense)	(None, 30)	3030
dropout_3 (Dropout)	(None, 30)	0
dense_4 (Dense)	(None, 1)	31

Total params: 20,161  
Trainable params: 20,161  
Non-trainable params: 0

# The Model - MC Dropout

# The Model - Callbacks

- **Early Stopping** - Max of 500 epochs and a patience monitoring the loss function of 30
- **Tensorboard** - Enables the logging of training metrics and see their improvement though out training.
- **Model Checkpoint** - only the best performing model iteration on the validation data would be kept as our final model.

# Model Evaluation – No Dropout vs Dropout vs MC Dropout

	ROC Score	Improvement
Without Dropout	0.8990490403416795	-
With Dropout	0.9934078794963115	10,5%
With MC Dropout	0.9947038946272739	10,6%

Figure 4: Evolution of the area under the ROC curve for the model without dropout.

Figure 5: Evolution of the area under the ROC curve for the model with dropout implementation

# Model Evaluation – Standard Deviation

# CONCLUSION

The slide features a dark purple background with various geometric shapes in the corners. Top-left: a pink circle, a dashed yellow circle, a purple pentagon, a blue dotted circle, and a pink pentagon. Top-right: a blue triangle, a purple circle, a dashed yellow circle, a pink striped circle, and a blue pentagon. Bottom-left: a blue pentagon, a pink triangle, a yellow striped triangle, a purple triangle, and a dashed blue circle. Bottom-right: a pink circle, a purple triangle, a dashed yellow triangle, and a blue dotted circle.

# Thanks!
